## EDUCATION

### Uka Tarsadia University, Bardoli

*Bachelor of Technology in Computer Science Engineering (Cyber Security)*

**Jul 2023 – Present**

*CGPA: 9/10*

### Leo School of Science and Commerce, Surat

*Higher Secondary Education (Class XII)*

**Apr 2023**

*PR: 79.89*

## TECHNICAL SKILLS

**Programming Languages:** Python, Java, C, C++, SQL

**Web Technologies:** HTML, CSS, JavaScript, React.js, Node.js

**Databases:** MongoDB, MySQL

**Cyber Security:** Kali Linux, Nmap, TOR, VPN, Proxychains, Footprinting, Ethical Reconnaissance

**Tools & Platforms:** Git, GitHub, VS Code, Android Studio, VMware

**Core CS:** Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

## EXPERIENCE

### MERN Stack Developer Intern – Flare Global Soft

Apr 2025 – May 2025

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built API-based projects including a Weather App, Movie Information Portal, and Portfolio Website.
- Contributed to an Employee ERP System with authentication, task management, and leave tracking features.

### Cyber Security Intern – Edu-Versity

Jun 2025 – Aug 2025

- Trained in Kali Linux, Nmap, TOR, VPN, Proxychains, and ethical reconnaissance techniques.
- Configured secure Linux environments using VMware and performed network scanning activities.
- Gained practical exposure to privacy protection and vulnerability assessment concepts.

### Wix Developer Intern – Innov2Grow LLP

Dec 2025 – March 2025

- Developed and deployed a complete company website using the Wix platform.
- Built a recruitment portal allowing candidates to apply for company roles.
- Implemented backend functionality using Wix Velo for secure form data storage.

## PROJECTS

### Employee ERP System

MERN Stack

- Built a full-stack Employee ERP System with secure authentication and employee management.
- Developed task assignment and leave tracking modules using Node.js and MongoDB.

### Secure Encryptor

Cyber Security

- Developed an encryption and decryption tool using modern cryptographic techniques.
- Implemented hashing and password-based encryption for secure data protection.

## CERTIFICATIONS

- **IBM Cybersecurity Fundamentals** — Completed industry-recognized training covering core cybersecurity concepts, threats, vulnerabilities, and security best practices.
- **Advanced Network Pentesting - Practical Tutorials (Udemy)** — Gained practical experience in network reconnaissance, penetration testing methodologies, and security assessment techniques.
